After session 7:

- Practicing at home:
Easter is not just one day. It is a season of 50 days, significantly longer than the 40 days in Lent. Our Church's calendar is designed this way to help us remember that we are called to GO and live a life that is centered more on resurrection joy than on fear. During Eastertide, find ways to live into the Way of Love you have walked this Lent. The end of our Lent journey is only the beginning, as we take all the transformation we have experienced and imagined and use it to join God in healing and reconciling the world. How will you continue to walk the Way of Love for your whole life? Who will be your companions along the way?
